Loose Fill Rubber Mulch

Loose Fill Rubber Mulch is the most innovative replacement for traditional loose-fill materials such as wood chips, sand, or gravel on the market today. It is made from 100% recycled tire buffings.

The mulch is organically dyed, making it non-toxic for children, pets, and our environment. ASTM F 1292-96 and F-355-95.

Loose Fill Rubber Specifications, Features, and Calculations

Size	+4 mesh buffing material
Color	TRI Mulch: Red, Green, and Yellow Rustic Mulch: Brown and Red Jungle Mulch: Brown, Red, and Yellow Black Mulch
Packaging	60 lb bags or 1,850 lb super sacks
Coloring Agent	Organic Pigment (non-toxic to animals and children)
Testing	<p>Meets and exceeds ASTM F 1292-96 “Standard Specification for Impact Attenuation of Surface Systems Under and Around Playground Equipment” for 4, 6, 8, and 10’ fall height requirements</p> <p>Meets and exceeds ASTM F 1951-99 “Surface Accessibility Test” for ADA accessibility</p> <p>Showed negligible or no change in color when subjected to the “Colorfastness To Light (Xenon)” test for a period of 5 years</p>
<p align="center">Quantity Calculations</p> <p>4” depth = Less than 5’ fall height protection 5” depth = Up to 6’ fall height protection 6” depth = Up to 10’ fall height protection 2” depth = Recommended depth for Landscaping</p>	<p>Desired Depth: X <u> 1.5</u> = lbs/sq. ft</p> <p align="center">lbs/sq. ft.</p> <p><u> x total sq. ft.</u> = TOTAL LBS NEEDED</p>
